

Vilnius 5-days Composing Tourney

Preliminary Award

Theme:

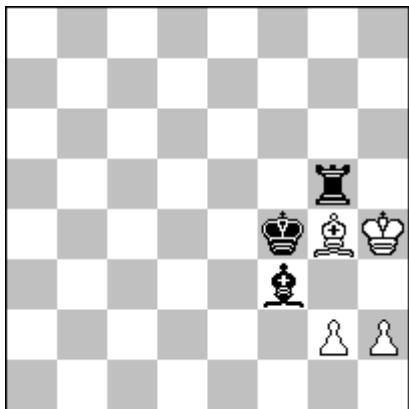

h#3.5–10 with a twin or twins.

In the initial position, a black piece A (queen, rook, bishop, or knight) stays on square X. This piece must play some role (passive or active) in the solution. A twin is formed by moving piece A to square Y, and in the course of the solution it goes (in one or more moves) to square X. The first move of Black in the twin cannot be going to X. All mates must be different.

I received 16 entries from 17 authors.

Participants (* means an entry with co-authors):

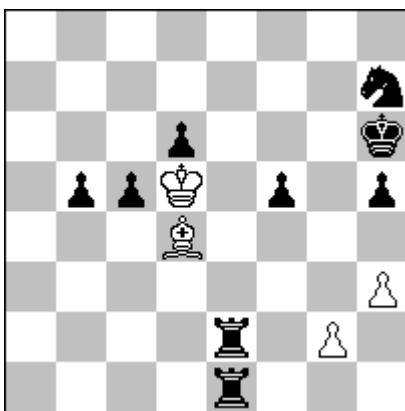

Fadil Abdurahmanović (Bosnia and Herzegovina) – 5, Vlaicu Crișan (Romania) – 13*, bernd ellinghoven (Germany) – 10, Zoran Gavrilovski (North Macedonia) – 8, Evgeny Gavryliv (Ukraine) – 6, Eric Huber (Romania) – 13*, Marko Klasinc (Slovenia) – 3, Ralf Krätschmer (German) – 4, Rainer Kuhn (Germany) – 2, Zdeněk Libiš (Czech Republic) – 11, 12, Luis Miguel Martín (Spain) – 9, Wilfried Neef (German) – 16, Aleksandr Semenenko (Ukraine) – 15*, Valery Semenenko (Ukraine) – 15*, Pierre Tritten (France) – 1, Kenan Velikhanov (Azerbaijan) – 7, Menachem Witztum (Israel) – 14.

Entry No.16 was excluded because it does not fulfill all the requirements for the theme, the thematic black piece does not play any role in position a), it can be removed from the board.

This is my ranking:

No.1. Pierre Tritten

The only problem in which thematic square is intermediate in the route of the thematic piece (bS). Additionally, there is a choice between possible routes of bS to its destination square (2. Sf8?). Black Indian. A nice miniature with the ideal mates (echo).
